

How to replace the extension handle on my trolley?

These instructions show how you can replace the extension handle on your trolley.

Written By: VAUDE Reparaturteam

INTRODUCTION

These instructions show how you can replace the extension handle on your trolley. They apply to the following VAUDE models: Tobago, Samoa & Tonga (all sizes).

TOOLS:

- [Phillips #2 Screwdriver](#) (1)

PARTS:

- [VAUDE Trolley Handle](#) (1)

Step 1 — Trolley handle model Tobago, Samoa & Tonga

- Open the zip inside the trolley to expose the handle.

Step 2

- Unscrew the two screws in the lower section on the handle assembly using a Phillips screwdriver.

Step 3

- Using a Phillips screwdriver, unscrew the 6 marked screws attaching the handle to the upper section.

Step 4

- After unscrewing all screws, it is easy to remove the entire handle assembly.

Follow the instructions in reverse order to finish the repair.
